

# ITSAP 2017 Forum Updates!

## INTRODUCTION

Intelligent Transportation Systems – HK (ITSHK) and the ITS Asia Pacific Forum organizing committee extend a warm invitation to local, regional and worldwide specialists, experts and government officials in transportation and smart city to join the upcoming **15th ITS Asia Pacific Forum and Exhibition in Hong Kong SAR, China, June 26-29, 2017**. Billions of dollars are being invested in transportation infrastructure development for the smart cities worldwide to meet the demands in metropolitan regional development in the future. The Hong Kong SAR government has invested in a few major mega transports infrastructure projects to connect cities in Pearl River Delta regions. Under the theme **“Metropolitan Transportation Infrastructure in Smart Cities”**, the event provides a unique platform for sharing experience, learning the latest industry technologies and exploring collaboration opportunities.

## PROGRAMME HIGHLIGHT

Local, regional and worldwide specialists, experts and government officials in the transportation and smart city will be invited to join the forum and exhibition at Hong Kong Science and Technology Park, Shatin.

Plenary Session	Top level transport officials and academia will present high level speeches on ITS policies and initiatives
Executive Session	Executive sessions cover the latest update from different ITS AP countries
Special Session	Special sessions are organized with stakeholders organizations to focus on special ITS issues.
Technical Session	The papers cover researches or latest knowledge on mobility, integration, communication, innovation, environment, safety & security and policy, standard & regulation
