## LSCM Logistics Summit 2017

### *Logistics Robotics and Technologies for Belt and Road Initiative*

Date: Friday, 15 September 2017, 9:00a.m.-5:00p.m.

Venue: Grand Hall, Hong Kong Science Park

#### Introduction

With the intention of promoting economic cooperation among the Eurasian countries, the **Belt and Road Initiative** has been designed to enhance the orderly free-flow of economic factors and the efficient allocation of resources. As such, timely and efficient transportation and movement of goods will be in enormous demand.

**Robotics in Logistics** will be undoubtedly a significant technology trend under envisioning of economic globalisation. In order to cope with future economic growth, Robotics Technology will have a profound and positive impact on the industry development.

The **LSCM Logistics Summit 2017** is the Centre's annual event and bringing together senior government officials, top-notch industry leaders, prominent researchers and academia representatives to share inspiring insights in the related topics. A series of innovative technologies, including **Robotics, Automated Warehouse and VR/AR**, will be showcased at the Summit to demonstrate how these technologies can streamline the operational efficiency. Other programmes will include exhibitions from trade partners and networking sessions to build collaboration opportunities.
