Programme Highlights

The aim of the HKES2021 is to promote the benefits of smart city development and how electronics engineering enables our city to head towards the vision laid down in the newly published Smart City Blueprint 2.0. Presentations and panel discussion will cover the views of speakers on the drive required to accomplish the initiatives in the Blueprint 2.0. We also aim to uplift the awareness and knowledge of various enabling technologies of smart city development and nurture engineers and students to effectively use and apply innovative technologies to improve the quality of life.
