

# Hong Kong Electronics Symposium 2016

## "Smart City - Cliche or Real Challenge?"

**Date & Time** : 14-April-2016, 9:00am - 5:30pm  
**Venue** : Charles K Kao auditorium

### Program Highlight

Smart City is one of the key initiative in the Policy Address of the Chief Executive in 2015. Smart City is no longer a buzzword or a cliché. The technology evolution in LTE, 5G, Wi-Fi, ZigBee, BLE and IoT provides a solid ground for the development and implementation of Smart City. Yet, there are some real challenges ahead of us.

The Electronics Division of The Hong Kong Institution of Engineers will organize the flagship symposium "Hong Kong Electronics Symposium 2016" on 14 April 2016 in the Hong Kong Science and Technology Park. The theme of the Symposium is "Smart City - Cliché or Real Challenge?" The topics of interest in HKES 2016 include smart energy, smart transportation, smart building, smart public safety, smart healthcare, etc.

The HKES 2016 will provide an excellent opportunity for the vendors, service providers, users, government departments, industry experts and professional engineers to exchange views and opinions, to discuss technological advancements and future developments of Electronics industry and Smart City in Hong Kong.
